***Detailed Action***

The following is responsive to the request for continued examination under 37 CFR 1.114 received Feb. 25, 2005.

No claims are cancelled. No new claims are added. Claims 1-40 are currently pending.

Applicant's response and statements under 37 CFR 1.806 and 1.808 have been considered and are found to be persuasive. Therefore, the previous rejection of claims 10, 19, 25, 31, 39 under 35 USC 112, first paragraph is withdrawn.

***New Ground(s) of Rejection***

***Claim Rejection(s)—35 USC 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 10, 19, 25, 31 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 10, 19, 25, 31 and 39 describes a monoclonal antibody by its lab designation 26-10. Where the lab designation is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. The claim scope is uncertain since the lab designation can always change. Therefore the Examiner respectfully suggests that applicant amend the claims to include the limitation –as deposited with ATCC under HB8120--.

Art Unit: 1614

***Allowable Subject Matter***

Claims 1-40 are free from the prior art because the prior art does not disclose or fairly suggest the claimed methods.

***Conclusion***

Claims 10, 19, 25, 31 and 39 are rejected.
